PERSONAL PROFILE

Fullstack junior developer with a solid academic background in Applied Mathematics and hands-on programming experience in C++, Java, and Swift. Demonstrated ability to build object-oriented desktop applications with user-friendly interfaces through various personal projects. Combines analytical thinking with practical coding skills, motivated to join development teams and produce clean, efficient, and maintainable software solutions.

TECHNICAL SKILLS

- **Languages:** C++, Java, Swift.
- **Development Tools:** Git, GitHub, Visual Studio, Qt, IntelliJ IDEA, Eclipse, Xcode.
- **Concepts:** OOP, Algorithms & Data Structures.
- **Operating Systems:** Windows, macOS.

PROJECT EXPERIENCE & ACHIEVEMENTS

Vector Graphics Editor – C++/Qt

- Developed a multi-file vector graphics editor using C++ and Qt framework
- Implemented OOP architecture with CustomGraphicScene, MainWindow, and polymorphic Figure classes
- Applied key OOP principles: polymorphism, abstraction, and encapsulation
- Created an intuitive GUI for drawing and manipulating geometric shapes

Single Document Interface (SDI) Application

- Built an SDI-based graphical application with document-view architecture
- Reinforced understanding of desktop application patterns and event-driven programming

Simple Game Mechanics Demo – Animation Project

- Created an interactive animation demo showcasing basic game mechanics

Parking Lot Management System – Java/IntelliJ IDEA

- Developed a console-based parking lot management application in Java
- Implemented file I/O operations for persistent storage of parking data

EDUCATION

Belarusian State University | Expected Graduation: 2026

- **Major:** Applied Mathematics
- **Relevant Coursework:**
 - **Programming:** Object-Oriented Programming, Machine-Oriented Programming, Cross-Platform Application Development, Industrial Programming, Algorithms and Data Structures
 - **Mathematics:** Discrete Mathematics and Mathematical Logic, Mathematical Analysis, Analytical Geometry, Fundamentals of Higher Algebra, Linear Algebra, Differential Equations, Improper Integrals, Numerical and Functional Series
 - **Systems:** Operating Systems

CERTIFICATIONS & COURSES

- **Version Control with Git** – EPAM Systems (2024)
 - Mastered branching, merging, and collaboration workflows in Git

LANGUAGES

- **English:** BI (Intermediate)
- **Russian:** Native
- **Belarusian:** Native
