PERSONAL PROFILE

Fullstack junior developer with a solid academic background in Applied Mathematics and hands-on programming experience in C++, Java, and Swift. Demonstrated ability to build object-oriented applications with user-friendly interfaces through various personal projects.

TECHNICAL SKILLS

- **Languages**
 - **C++**
 - * **Standards:** C++98, C++11, C++14, C++17, C++20
 - * **Libraries:** STL, Boost, Qt
 - **Java**
 - * **Standards:** Java 8
 - * **Libraries:** Spring, JUnit
 - **Swift**
 - * **Standards:** Swift, SwiftUI
 - * **Libraries:** UIKit, SwiftUI
- **Development Tools**
 - Git, GitHub, Git Bash, Visual Studio, Qt, IntelliJ IDEA, Eclipse, Xcode
- **Concepts**
 - OOP, Algorithms & Data Structures, SOLID, Design Patterns
- **Operating Systems**
 - Windows, macOS

PROJECT EXPERIENCE & ACHIEVEMENTS

Vector Graphics Editor – C++/Qt

- Developed a multi-file vector graphics editor using C++ and Qt framework
- Implemented OOP architecture with CustomGraphicScene, MainWindow, and polymorphic Figure classes
- Applied key OOP principles: polymorphism, abstraction, and encapsulation
- Created an intuitive GUI for drawing and manipulating geometric shapes
- Libraries & Technologies: Qt Widgets, Qt Graphics View Framework, QPushButton, QLabel, QLineEdit, QTextBrowser, QTableView, QStandardItemModel, QVBoxLayout, QHBoxLayout, QMenuBar, QAction, QMessageBox, QFileDialog, QFontDialog, Signals & Slots

Single Document Interface (SDI) Application

- Built an SDI-based graphical application with document-view architecture
- Reinforced understanding of desktop application patterns and event-driven programming
- Libraries & Technologies: Qt Widgets, Qt GUI, QMainWindow, QWidget, QLayouts, Event Handling

Simple Game Mechanics Demo – Animation Project

- Created an interactive animation demo showcasing basic game mechanics

Parking Lot Management System – Java/IntelliJ IDEA

- Developed a console-based parking lot management application in Java
- Implemented file I/O operations for persistent storage of parking data
- Libraries & Technologies: Java I/O (FileInputStream, FileOutputStream), Java Serialization, java.time API (LocalDateTime, DateTimeFormatter, ChronoUnit), Collections Framework, Exception Handling

EDUCATION

Belarusian State University

- **Major:** Applied Mathematics
- **Relevant Coursework:**
 - **Programming:** Object-Oriented Programming, Machine-Oriented Programming, Cross-Platform Application Development, Industrial Programming, Algorithms and Data Structures
 - **Mathematics:** Discrete Mathematics and Mathematical Logic, Mathematical Analysis, Analytical Geometry, Fundamentals of Higher Algebra, Linear Algebra, Differential Equations, Improper Integrals, Numerical and Functional Series
 - **Systems:** Operating Systems

CERTIFICATIONS & COURSES

- **Version Control with Git** – EPAM Systems (2024)
 - Mastered branching, merging, and collaboration workflows in Git

HOBBIES

- **Music / Violin:** 8 years of practice. Winner of several international music competitions.
- **Music / Electronic music:** an original performer.
- **Music / Guitar:** in the learning process.
- **Knitting**
- **Drawing:** abstraction.
- **Mathematics**
- **Sport:** press and figure.
- **Sports programming:** took part in 1/8 final ICPC.
- **Collections:** lego, shells.

LANGUAGES

- **English:** BI (Intermediate)
- **Russian:** Native
- **Belarusian:** Native
